EVOLUTION OF A WORD.

"Hypocrite" Was Once the Title of a Pantomime Actor.

Do you know what a hypocrite is? Why, he is a person who uses the church as a cloak to cover graft and greed and all manner of evil-doing. At least that is what he was in the days of our fathers. More recently he has taken on another color, a different kind of cloak. He need not be a dissembler merely in the matter of religion. Hypocrisy may be practiced in friendship, in culture, in philanthropy. It goes a degree further even than that, for the hypocrite may deceive himself as well as his fellow man.

But how did the word, which is obviously a compound of "hypo," meaning "under," and the very familiar "critic" come to mean a person who deceives either himself or other people? This question suggests a second one: What is a critic?

The Greek verb from which the noun was derived meant originally to analyze, separate or judge. So the critic came to be one who had been set apart or judged worthy to plead a cause or present an argument. At one stage of his evolution the critic was a person who recited the works of the great dramatists. He was an actor—who did not act. The gestures were supplied by a man trained for that purpose, who went through a sort of pantomime, while the real interpreter of the part gave the melodiously intoned words.

The pantomime artist was a "hypocrite" because he played an under part to the "critic." Later, when the speaking and acting were done by the same person, he was called the "hypocrite." Now any one who plays a part not his own is practicing hypocrisy.—St. Louis Globe-Democrat.

ANCIENT MEALTIMES.

When They Rose at 5, Dined at 9 and Supped at 5.

The change in mealtimes is evidenced by the old rhyme:

To rise at five and dine at nine,
To sup at five and bed at nine,
Will make a man live to ninety-nine.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. But one suspected that the change is in the names of the meals rather than in the hours. Our ancestors would have termed our luncheon dinner and our dinner supper. It is a curious fact that in some of the Oxford colleges, where the founders made allowances for the meals of the students, a much larger sum is allotted for supper than for dinner, implying that the former was the more substantial meal. Taken at 5 or 6 o'clock, it was really "early dinner."

Some particulars of the mealtimes of our ancestors may be found in William Harrison's "Description of England," published in 1587.

"With us the nobility, gentry and students do ordinarily go to dinner at 11 before noon and to supper at 5 or between 5 and 6 at afternoon. The merchants dine and sup seldom before 12 at noon and 6 at night, especially in London. The husbandmen dine also at high noon, as they call it, and sup at 7 or 8, but out of the term in our universities the scholars dine at 10. As for the poorest sort, they generally dine and sup when they may, so that to talk of their order of repast it were but a needless matter."—London Chronicle.

Well Disguised.
